BeveLED Mini® Complete Features At A Glance

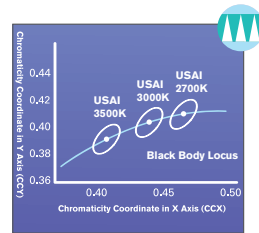

One Housing. Three Functions. Downlight, Adjustable and Wall Wash.

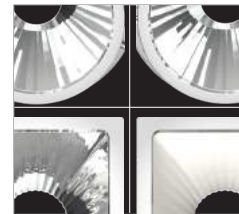

Install-From-Below Retrofit Housing

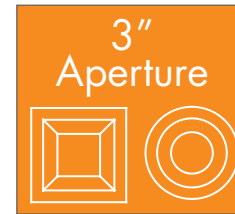

5 Year Warranty

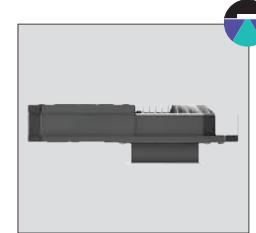

2-Step MacAdam Ellipse for Fixture-to-Fixture Color Consistency

Interchangeable Reflector System

3" Aperture Round and Square

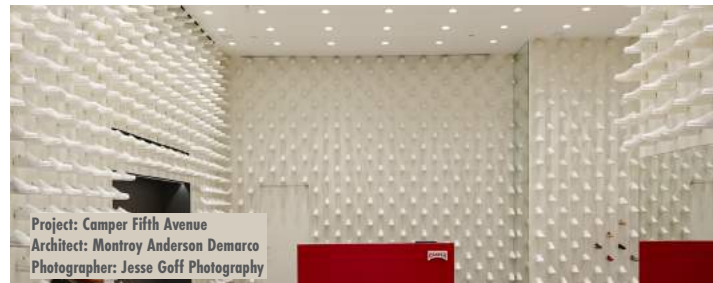

Shallow Fit BabyLED® Housings Less Than 3" Tall

Field-flexibility with Convertible Trims

Enhance The Way People Live, Work & Play with USAI's LED Color Choices

Project: Camper Fifth Avenue
Architect: Montroy Anderson Demarco
Photographer: Jesse Goff Photography

Classic White® 2200K | 2700K | 3000K | 3500K | 4000K

USAI's proprietary LED light engines achieve a 2-step MacAdam ellipse along the black body locus, resulting in reliable and uniform color from fixture to fixture. The result is consistently beautiful light throughout the space.

Project: One Five One
Lighting Design: Loop Lighting
Architect: STUDIOS architecture

Color Select® 2200K - 6000K and everything in between.

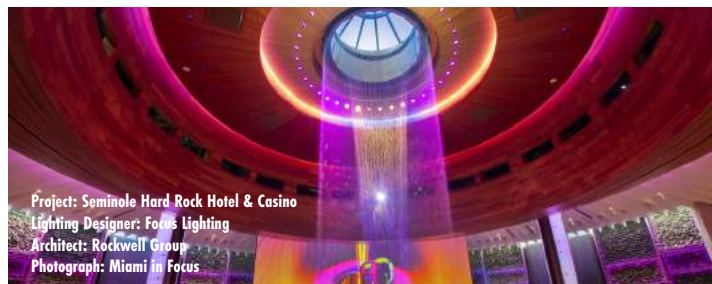

USAI Lighting Color Select® proprietary tunable white LED technology unlocks the potential of Personalized Lighting®, replacing a variety of sources as well as recreating the feel of natural daylight with one fixture type.

Project: Moril
Architect: Rozas Ward Architects
Photograph: Neil Alexander

Warm Glow® Dimming 2700K | 3000K | 3500K

Utilizing USAI's patented proprietary algorithm and circuitry, Warm Glow Dimming precisely mimics the black body curve of a standard 100W A19 lamp by gradually transitioning from 2700K, 3000K or 3500K down to 2200K. The result is virtually indistinguishable from an incandescent light source.

Project: Seminole Hard Rock Hotel & Casino
Lighting Designer: Focus Lighting
Architect: Rockwell Group

Infinite Color+® ∞ Infinite choices

Enjoy complete freedom to design and define your own perfect architectural white light source, and then augment with the colors of your choice for a tailored look. Take advantage of full color plus white light flexibility with our RGBW products and DMX512 controls.

Mini Scale with Super Sized Performance

Small yet powerful, BeveLED Mini Complete delivers over 2000 lumens from a mere 3" aperture. Fixture-to-fixture color consistency is assured, and each product is rigorously tested for dimming compatibility with major architectural control systems. BeveLED Mini Complete is ideal for installation in retail stores, museums, restaurants, hotels and high-end residential projects.

Downlight

Trimmed		Trimless		Millwork	
B3SDF	B3RDF	B3SDL	B3RDL	B3SDM	B3RDM
