USAI Celebrates (Un)Finished Ceilings

Reimagining our technology, engineering and design into a complete platform of products and solutions for Open Ceilings.

FORM + FUNCTION

Beauty is in the simplicity of USAI's patented canopy – designed to neatly cover a junction box with clean lines.

ULTIMATE FIELD FLEXIBILITY With interchangeable conduit cutout keys included with each canopy, easily reconfigure fixtures on site.

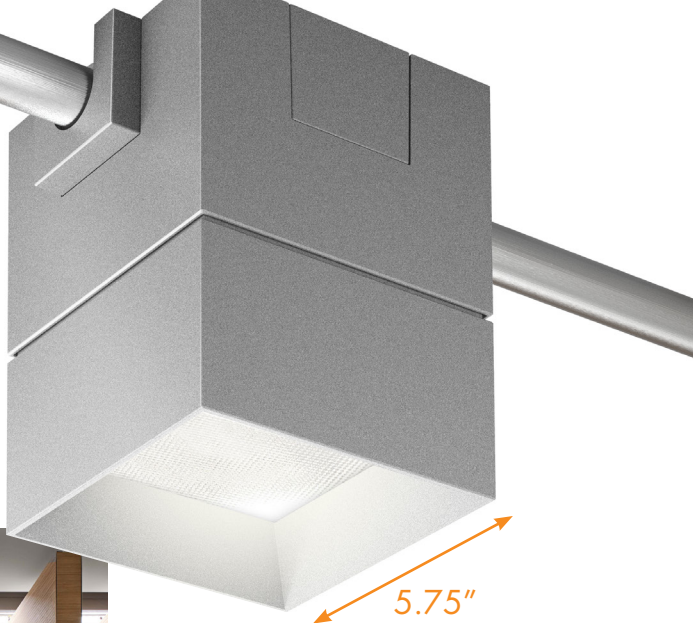

A SOLUTION FOR EVERY SPACE

with 5 product families that compliment our recessed lighting platform, specifiers have multiple solutions with a uniform aesthetic for every project.

- BeveLED BLOCK®
- MICRO™ Pendant
- NanoLED® Cylinders
- BeveLED Mini® Cylinders
- BeveLED® 2.2 Cylinders

BeveLED BLOCK®

BeveLED Block is specifically designed for use with surface-mounted conduit and junction boxes on ceilings where recessed lighting is not possible. Perfect for lofts, offices, and open architectural spaces.

BEVELED BLOCK® FAMILY INFORMATION

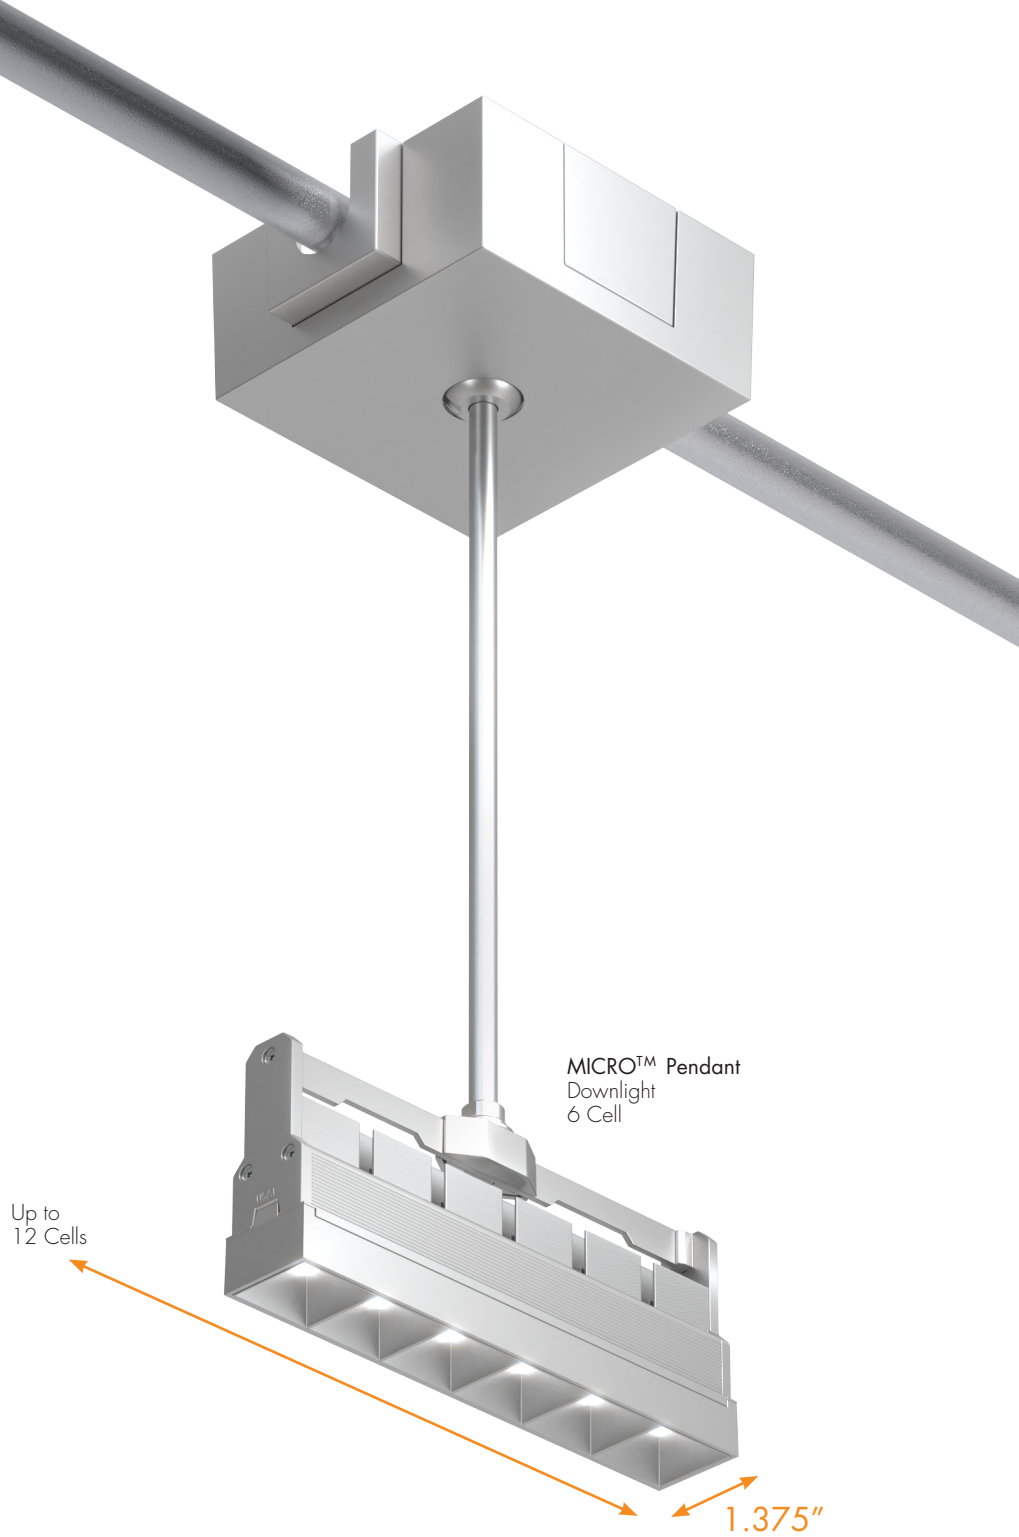

COLOR TECHNOLOGY	FUNCTION	SOURCE LUMENS	DELIVERED LUMENS	WATTAGE
 CLASSIC WHITE®	 DOWNLIGHT	1150 - 2400	850 - 2050	9W - 24W
 WARM GLOW® DIMMING*	 WALL WASH			

*Warm Glow Dimming available in downlight configurations only.

MICRO™ Pendant

USAI's smallest LED downlight form factor is now available in pendant mount configurations. Our stem-mount solution can be installed with any ceiling type, and Micro Pendant's sleek 1.375" profile integrates beautifully with wood grille ceiling systems.

Suspension options available for every cell size include recessed and surface-mounted junction boxes and conduit, remote and canopy-mounted dimming drivers, and beautifully anodized white, black and silver finishes.
